PROFILE

Erin Murray joined Triangle in 2017 and supports facilitation and public involvement projects. With an educational background in marine science and policy, Erin possesses strong science communication and project management skills that leverage technical knowledge of marine and natural resources to deliver customized results to her clients. Erin also brings a diverse set of previous work experience such as positions in tech, habitat restoration, and within the maritime and state transportation industry.

EDUCATION

2017

M.M.A Marine Policy
University of Washington

2012

B.A. Environmental Policy & Planning
Western Washington University

EXPERIENCE

National Marine Fisheries Service Puget Sound Steelhead Recovery Plan, 2017 - Ongoing

- Supports the Puget Sound Steelhead Recovery Team, a multi-stakeholder group tasked with writing the Puget Sound Steelhead Recovery Plan
- Coordinates with stakeholders to incorporate technical assessments for how to best recover the Distinct Population Segment of Puget Sound steelhead

Lake Ozette Sockeye Steering Committee Facilitation, 2017 - Ongoing

- Assists the Lake Ozette Sockeye Steering Committee, a multi-stakeholder committee which provides input on the recovery of Lake Ozette sockeye
- Prepares quarterly Steering Committee meetings and Public Outreach and Habitat subcommittee calls
- Develops agendas, meeting summaries, final products and the Steering Committee's implementation of a list of near-term actions necessary for Lake Ozette sockeye recovery

Salmon Recovery Network Work Group, 2017 - Ongoing

- Coordinates the statewide Washington Salmon Recovery Network (SRNet) workgroup
- Organizes collaboration between local, state, federal and tribal entities implementing salmon and steelhead recovery

King County Wastewater Treatment Division Strategic Planning Facilitation, 2017 - Ongoing

- Supports the development of three strategic plans for the Division's Biosolids, Recycled Water, and Technology Programs
- Develops meeting materials and facilitates meeting logistics
