

PROFILE

Kelli Katzer supports the Environmental Education Services team. She earned a B.A. in Environmental Studies with a concentration in environmental education and communication from the University of Washington and then went on to present outdoor education programs for youth in the Seattle area on forest ecology, conservation, and ethnobotany. With an educational and professional background in environmental education, Kelli provides ample support to Triangle Associates' education team through youth program marketing, scheduling, reporting and all that comes in between. Kelli is excited to play an important role in helping youth make connections between their actions and the natural world.
